

# All Natural Pond Clarifier

***AN ENVIRONMENTAL FRIENDLY WAY TO CLEAN UP YOUR POND!***

## **WHAT IS ALL-NATURAL POND CLARIFIER ?**

**All-Natural Pond Clarifier is beneficial bacteria that:**

### **◆ REMOVES ODOUR AND POND SCUM**

- ⇒ Eliminates fish wastes and ammonia
- ⇒ Assists in the breakdown of goose/duck excrement
- ⇒ Assists in degrading debris such as grass, leaves and other rubble

### **◆ NON TOXIC AND SAFE**

- ⇒ Non toxic/non pathogenic to human, fish, wildlife and livestock.
- ⇒ Safe for irrigation ponds
- ⇒ Permit not required

### **◆ REDUCE EXCESS**

- ⇒ Removes nutrients and sediments without chemicals
- ⇒ Decreases Nitrite and Nitrate
- ⇒ Reduces phosphates (which is typically the limiting nutrient for plant growth)

### **◆ BETTER WATER CLARITY**

- ⇒ Greatly improves water clarity
- ⇒ Restores water health while reducing oxygen demand during winter.

### **◆ EASY TO USE**

- ⇒ Dry packs are convenient to use with no odor from the product itself
- ⇒ Just toss water soluble bags or apply bulk product at recommended rates

This Pond Clarifier contains billions of beneficial pond bacteria which work around the clock to neutralize and purify the water. It breaks down organics, cleaning the water and reducing the organic mud at the bottom of your pond, as it naturally clears and cleans your pond. These bacteria are listed on the Canadian DSL list.

**REDUCES: ★ murky water ★ bottom-sludge (muck) ★ ammonia, nitrite, nitrate & phosphate**

# All-Natural Pond Clarifier

## AN ENVIRONMENTAL FRIENDLY WAY TO CLEAN UP YOUR POND!

This product has proven very effective in ponds throughout Canada. Combined with Aeration, results have shown a large percentage in sludge reduction annually.

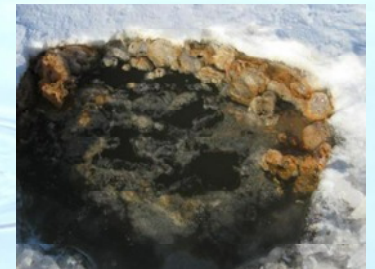

This is your best choice for maintaining healthy ponds, water gardens and lakes. This professional grade formula is a highly concentrated blend of natural occurring bacteria and enzymes which rapidly biodegrade dissolved organics and bottom sludge while reducing the causes that contribute to sludge build up in water bodies.

POND PRO All-Natural Pond Clarifier has proven even more effective when used together with True Blue Pond Dye which reduces sun rays needed for plant growth and POND PRO Flocculent which binds particles and phosphates to clear water.

*"I had talked to numerous salesmen about cleaning up lagoons and their solution was a dead end. (note: the term I used salesmen). After 2 years of algae blooms brown water, and dead fish I was at my end and was ready to get the cat and fill it in. Finally I got a hold of a Biologist at POND PRO. A year has gone by now and with aeration and All-Natural Pond Clarifier my water is crystal clear, bottom of pond is back to sand, no gross algae mats, and my trout have fed aggressively all winter."*

**See pictures at the right.**
